This is a matter which does not fall within the jurisdiction of the Central Intelligence Agency, as the National Security Act of 1947 which provided for the establishment of the Agency, provided that it shall have no police, subpoena, law enforcement powers, or internal security functions. I note that you have applied for patents and I might suggest that you address your inquiry to the Department of Commerce.

Dear Sir:-

For over 40 years I have been doing research & trial over many physical and chemical ideas of my own. Two years ago while at a Trustee address my car (truck) was inspected by a very business like individual who aroused my suspicions and more recently I answered an ad in N.Y. Times for person experienced in research and this man phoned then he came down with his wife by car from Dry City. He seemed very nosy but business like. I've never heard from either man since.

Here is the question 
hit on some very valuable
principle of physics or chemistry
how can I keep it from the
Communies? I've applied for
patents

Sincerely,

W. Parker
